

SIR BRANCH 161 NEWS

Celebrating our 30th year! *September, 2021*

The Mission of SIR is to enrich the Lives of Our Members Through Fun Activities and Events—While Making Friends For Life

Rick Harris, Big Sir

Our second post-lockdown Luncheon Meeting was held August 10, and it more closely resembled the meetings we've enjoyed in the past, including a speaker! We also elected our Branch Executive Committee officers and directors for 2022, as listed in the August newsletter. I would like to congratulate these gentlemen and wish them well for the coming year. Also, all our members owe thanks to the outgoing BEC officers who have dedicated their personal time to support the branch.

Our next Luncheon Meeting is Tuesday, September 14, and you can read more about it in the Little Sir's newsletter article. If you attended meetings in either July or August, we have all we need from you to satisfy the Covid protocol. If you have not yet attended a meeting, please remember that we need proof of vaccination (or a negative test result) and the State SIR-mandated waiver. If you are not going to attend the September meeting, you must notify our Attendance Director, Phil Newlin, by Friday, September 10 (unless you are on leave of absence under Policy 25). For our first two meetings, we've encountered a high number of no-call/no-show situations, and as a part of membership all of us need to understand and comply with the attendance policy described in this (and every) newsletter.

One of the key aspects of keeping our organization healthy is communication. E-mail is the primary means we have to communicate to members, so it is important that it works for all, especially when the Covid situation can change our plans at any time. The

branch newsletter is emailed every month, and this has been the case even during the pandemic. Our board has become aware of several cases where members are not aware of what is going on... upcoming meetings, newsletters, etc, and this is unfortunate. Each of these cases is investigated, and the causes vary, with a primary one being emails redirected into junk folders. Another prominent cause is members changing email addresses and not informing us (Tom Jones). I realize that if you received this newsletter, you are not likely affected, however by spreading awareness maybe everyone can help. Also, as a reminder, current and past newsletters are available for viewing and/or downloading on our branch website www.sir161.org. There are links to a lot of other information as well.

Here's hoping for a successful meeting in September, with fingers crossed that the pandemic doesn't throw us another knuckleball. It's getting old. Isn't it?

Your 2021 Big Sir,

Rick Harris

Membership, Luis Figueroa

In August we inducted two new members, Richard Pontes and Howard Patton. Richard and Howard were sponsored by Phil Talley and Luis Figueroa respectively. Photos of Richard and Howard, along with their sponsors are shown below.

Richard Pontes has lived in Discovery Bay since 1986. He retired 10 years ago from his real estate office, Real World Delta Country, in Byron. He was a golfer for many years but has now quit. He is looking forward to participating in some of our branch activities, and in particular bicycling.

Howard Patton has lived in Discovery Bay since 1988 and is a retired Project Engineer who worked at Lawrence Livermore National Laboratory in the Nuclear Weapon and Laser Programs and retired in 1995. He was also a Director of International Physics/Engineering Society (AVS).

He has been President of the Discovery Bay HOA and Fire Commissioner Byron/East Contra Costs Fire District.

He also was a Commodore in the Discovery Bay Yacht Club.

He is life long tennis player and for several years owned a 42 foot recreational trawler where he cruised the Delta, Bay and California coasts. He is a U.S Navy veteran and diver.

Some of his hobbies include wood working, writing, travel, early western history (1800-1900), and backpacking.

Howard has 2 daughters who are both doctors four grand children (attorney, writer, archeologist, and technical manager).

We had 3 guests at the August 10th luncheon. Pete Schneider (sponsored by Gino Pagano), Phil Kepp (sponsored by Dan Lippstreu), and Bob Wantuck (sponsored by Luis Figueroa). Each of the sponsors were given a free bottle of wine for bringing in a guest. In addition, two of those guests have already filled out their membership applications and are expected to become members at the September 14th luncheon.

Any branch member who brings in a guest will receive a bottle of wine. If the guest decides to become a member, his sponsor will be rewarded with a free lunch certificate. The member who sponsors the most new members for the year will receive an additional free lunch certificate.

In August we did experience some attrition. Mike Quier has left the branch. Mike had been a member since 2013. Steve Greenfield has left the geographic area. Steve had been a member since 2014. In addition James Wenster has left the branch due to ill health. James had been a member since 2020. Lastly, Lynn Pierce has also left the area. Lynn had been a member since 1998.

The branch membership stands at 153.

Membership in Sons In Retirement is open to men regardless of age, race, color or religion. See the last page of this newsletter for more information.

SIR Cyclers, Jerry Wiebe (916) 206-9221

SIR Cyclers have individually racked up nearly 1500 miles on their twice-a-week rides since the beginning of 2021. Keeping themselves healthy and in good physical shape is a major goal of their dedication to their endurance but is not the only reason they ride. It's also about just having fun and enjoying each other's company. SIR Cyclers often add more personal rides weekly on their own, enhancing their commitment to bicycling and conditioning.

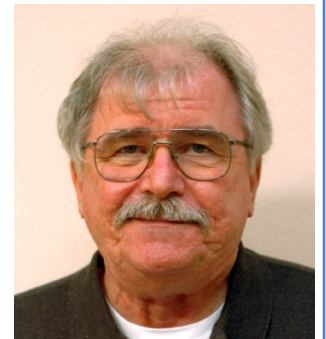

We have two scheduled rides every week pedaling each Thursday into Brentwood for a coffee stop, and riding Sunday for a longer and more challenging ride on the Marsh Creek Trail through Brentwood, Oakley, and Antioch. Occasionally they take their bicycles into the Livermore Valley where even more numerous bicycling trails are located.

All levels of bicycling experience are welcome, including those that may prefer to ride on electric bikes. The Cyclers are all well suited to help others brush up on their riding skills if one hasn't been riding for a while. You've heard it said, "That it's as easy as riding a bike!"

We assemble and leave from Jerry's driveway at 2071 Windward Point at 8:30am. Several new members have joined us, and we would really enjoy seeing more of you. If you would like to join in on the fun, contact Jerry with any questions you may have, then get that bicycle you have hanging on the wall of your garage down, dust it off and come along for some healthy exercise and camaraderie.

Activities, Alan Jarvie (408) 219 8240

As announced at our August 10 meeting, the recent shift in COVID protocols has caused us to put our Wine Tasting program back on hiatus – our usual 24-person groups in close quarters, and the impracticality of wearing masks while tasting wine and sharing food, dictates caution. We fully expect to resume our monthly tastings in January (on the 4th Thursday of each month) with Randy & Lynda Zierau scheduled to host on February 24, and Dick & Cam Donald hosting on April 28. Volunteers for the other monthly hostings will be gladly accepted !!

On the plus side, our Monday-night poker group continues. This is a weekly, low-stakes, 7-player game, hosted by the players on a rotating basis. We use a rotating schedule with everyone playing ~4 times every 5-6 weeks, this arrangement works best with a pool of at least 10-12, so there's definitely room to add several more players. Let me know if you'd like to join in.

Also, the survey we took earlier this year showed a strong interest in adding "Day Trips" to local points of interest (e.g. wineries, baseball games, SF theater, etc). Getting this going will take a little work; please let me know any suggested specific destinations.

Golf News, Larry Mensch

We have a tournament at Brentwood on August 17th. The cost is \$50 with optional skins and low gross/low net for an additional \$5 each. The format will be 2 best net balls of the foursome.

There are than 2 tournaments remaining for this year. We will play at Rancho Solano in Fairfield on September 7th and Paradise Valley on October 19th. The format at Rancho Solano will be two best net balls of the foursome. The cost is \$60 each at Rancho Solano with optional skins and low gross/low net for an additional \$5 each. Notify Larry Mensch if you wish to play along with your entry fees.

The tournament at Paradise Valley is our Year End Championship to determine our Branch 161 Champion. It is an individual low net tournament. Any SIR can play and win prize money, but to be eligible for the Championship, you need to be a member of Branch 161 and have played in at least two of our events. The cost is \$60 at Paradise Valley with optional skins and low gross/low net for an additional \$5 each.

Our Discovery Bay Branch 161 golf team played against SIRs Branch 8 in Scramble Match Play. We had 16 players, 8 teams, representing Discovery Bay against 16 players from Branch 8. This was our first such type of event and we won 3 matches and lost 4 and tied one. 3,4,1. Overall Branch won 41 holes and Discovery Bay won 31. It was a good event and I would see a rematch in our future.

Bowling news, John Fry

Podcast Corner, Phil Newlin

Fellow Sirs, welcome back to this month's edition of Podcast Corner. I hope that you enjoyed and improved your knowledge with the podcasts suggested in the previous two newsletters. Below is this month's suggested podcast for you and I've included last month's suggestion, in case you missed it.

If you have an interest in learning about and understanding the world around you, some of its history, about human nature, and other areas of general interest, this Podcast Corner may be of interest you. Each month, I'll suggest one or more educational/informational podcast episodes that I have discovered or have been member-recommended. I'll give a brief description and a website link for each episode.

If you have a recommended podcast episode or subject category, such as hot rods, golf, or healthcare, that you believe would be of interest to the members, please send it to me for research, or review and inclusion in one of the next newsletters. Send your suggestions to newlinp@sbcglobal.net.

If you are not familiar with podcasts, go to the inaugural edition in the July 2021 newsletter, where you'll find information about podcasts and how to get started.

This month's recommended podcast again comes from 99% Invisible from their Technology category describing the science of snake venom antidote and where it comes from. Hint: horses are involved. Listen, learn, and enjoy.
